11 MY COMMUNITY DENTAL CENTER
Hello Board of Commissioners, Community Leaders, and Community Members,

Public health often works behind the scenes and is an unfamiliar topic for many people. To be honest, I didn’t really know what public health did before I worked in it because what we do is often unseen. We work to prevent diseases and illness across the population. We are here to protect your health and improve our community’s health outcomes.

Ways we do this include:
- Case investigation to prevent food borne or communicable disease outbreaks.
- Actively monitoring drinking water in restaurants, schools, homes, campgrounds, and other public places to help eliminate water contamination issues.
- Assessing access to quality water.
- Issuing health advisories needed to protect health.
- Ensuring medical providers are storing/handling vaccine appropriately so it will work to prevent disease.
- Checking well and septic systems are installed correctly so drinking water is safe.
- Monitoring school surveillance to identify illness early and work with schools to reduce the spread.
- Advocating and promoting the importance of Health in All Policies. Where one lives, works, learns, and plays has direct impact on their health. Their zip code matters.
- Working to assess and address basic needs are being met for ALL community members, which allows them to better meet their full potential.
- Collaborating with other businesses and organizations to develop a community health improvement plan, which includes reducing obesity and improving access to care.

To accomplish this, we have to ensure our team is a well-oiled machine. This past year we have focused on improving administrative functions, including policies and procedures revision or development, updating job descriptions, implementing quality assurance metrics to ensure we provide quality consistent services to our community members.

All of these efforts cannot be done without the help of our partners, leaders, and you! We will continue to be innovative, collaborate with other community partners and strategically align resources to improve health and quality of life for Allegan County residents.

Improving our community’s health and quality of life outcomes requires all of our voices to be heard, including yours. Please consider following us on our Facebook page for future information. Also think about joining the Healthier Allegan County Coalition to influence actions the community takes to improve health outcomes for all. When we work together, we create a healthier Allegan County.

Sincerely,

Angélique Joynes, MPH, RN
Health Officer
GOVERNANCE

The Allegan County Board of Commissioners (BOC) is the governing board of the Public Health Department. The BOC employs a County Administrator who is recognized as the Chief Administrative Officer of the County. Representatives are below. For more information on our BOC, visit www.allegancounty.org.

Dean Kapenga
District 1

Jim Storey
District 2

Max R. Thiele
District 3

Mark DeYoung
District 4

Tom Jessup
District 5

Gale Dugan
District 6

Rick Cain
District 7

Robert J. Sarro
County Administrator

MISSION

The Allegan County Board of Commissioners shall plan, develop and evaluate the necessary policies and resources to ensure our county continues to progress and prosper.

VISION

The Allegan County Board of Commissioners is committed to providing our citizens superior and innovative services, being judicious and efficient in the expenditure of resources and promoting a safe, clean and healthy environment in which to live, work and play.
A Year in Review
2019 ACCOMPLISHMENTS

Quick Stats
- 73 learning & growth sessions
- 17 outreach events
- 179 new procedures
- 325 customer satisfaction surveys returned, with 100% customer satisfaction for 3 Quarters

ADMINISTRATION
- Trained 32 staff in Public Health Sciences 101
- Reclassified a position to address Public Information
- Updated 15 job descriptions
- Published our 2019 community health improvement plan
- Passed accreditation
- Increased Facebook followers by 25%
- Implemented a regional immunization campaign
- Developed customer service expectations for 100% of public health service areas
- Developed a Communication Plan
- Created policies and procedures based on Michigan Public Health Code Health Officer Authority
- Distributed handwashing signs in over 500 restrooms
- Implemented new Electronic Health Record

RESOURCE RECOVERY
- 4 successful scrap tire collections
- 3 popular regional recycling events
- BOC authorized election to expand/extend funding

EMERGENCY PREPAREDNESS
- Received Project Public Health Ready (PPHR) re-recognition

ENVIRONMENTAL HEALTH
- Fully staffed & trained Food team & Administrative Assistants
- Participated in the MDHHS Vector Borne grant
- Increased Type II facilities meeting their quarterly sampling requirements by 89%
- Field Team met the 14 business day turn-around 96.5% of the time for permits and loan evaluations

PERSONAL HEALTH
- Implemented new Electronic Health Record
- Fully staffed
- Met 100% Maternal Child Grant intended outcomes
- Increased Wear One community partners by 6% & distributed 150,000 condoms in Allegan and Ottawa Counties
Our strategic framework influences community health outcomes, while improved community health outcomes align with the vision and purpose of the Department.

View Allegan County's Strategy Map
The Health Department budget is from two funds. Fund 2211 supports all recycling activities. The primary revenue for recycling is the recycling surcharge. Fund 2210 supports all Public Health operations. Revenue in Fund 2210 generally includes the County General Fund allocation, State funding, grants, permits, fees, and Medicaid reimbursement.

*Waste Reduction Surcharge can only be used in the Recycling Program.
The Personal Health Division provides services to improve community member's health as well as outreach to improve community health outcomes. Find out more about Personal Health by visiting www.allegancounty.org/health.

**IN 2019, WE FOCUSED ON:**
- Early identification and reduction of communicable disease outbreaks in schools and the community.
- Detecting hearing and vision problems early to optimize learning.
- Ensuring medical providers administer and store vaccines appropriately.
- Working with providers to increase lead testing.
- Creating toolkits to give to patients.
- Providing immunizations.
- Case management.
- HIV/Sexually Transmitted Infections (STI) testing and risk reduction.

**NEW ELECTRONIC HEALTH RECORD SOFTWARE ROLL OUT**

In 2019, we implemented a new, web-based electronic health record (EHR) software, Patagonia. It supports the Public Health Informatics Institute workflow recommendations and facilitates data exchange with community partner providers, health information exchanges and state registries. With Patagonia, we are able to manage immunization programs, STI clinics and communicable disease screenings, as well as many other health department services. Overall, this has helped improve inventory management, billing, and advances our public health goals efficiently.

**PREVENT WHAT'S PREVENTABLE. VACCINATE.**

In mid-2019, Michigan Endowment Fund in collaboration with Michigan Association for Local Public Health, provided funding to Ottawa, Kent, and Allegan Counties to focus on the diseases that vaccinations protect against. **The goal was to increase vaccination rates across the county and reinforce that vaccines can prevent communicable diseases.** A 30 second and 15 second TV and Radio ad were created. Facebook Ads were used to spread this messaging to all Allegan County residents on social media for 80 days. Two billboards were also purchased on the I-31N and I-31S corridor for a six month period. **During the funding period, we saw an 8.9% increase on vaccinations given, compared to the same time frame in 2018.** Even though we cannot contribute this increase solely to the campaign, we believe the extra funds helped spread the message and reminded people to get their vaccines in a timely manner.

**FACEBOOK AD STATS**
- **9,944** reached
- **24,485** plays

**VACCINATIONS GIVEN**
- **19,509** vaccination doses given across all age groups from 3/1/2018 to 8/31/2018
- **21,419** vaccination doses given across all age groups from 3/1/2019 to 8/31/2019
PERSONAL HEALTH STATS

CHILDREN’S SPECIAL HEALTH CARE SERVICES
provided to children and adults with qualified medical diagnosis.

CHILDREN’S SPECIAL HEALTH CARE SERVICES

647 total clients
7% increase from 2018

Level 1 Plans of Care
192
32% increase from 2018

Level 2 Care Coordination
37
14% decrease from 2018

COMMUNICABLE DISEASE

494 investigations
14% increase from 2018

57 Lead test follow ups
50% increase from 2018

114 TB skin tests
7% decrease from 2018

HEARING AND VISION

4,806 hearing screenings
9% decrease from 2018

7,559 vision screenings
21% decrease from 2018

IMMUNIZATIONS

718 immunizations
35% decrease from 2018

215 waivers
30% increase from 2018

SEXUAL HEALTH SERVICES

162 STI/HIV clinic visits
15% decrease from 2018

644 case follow-ups
34% increase from 2018

OUTREACH EVENTS

Pictured (from Left to Right): Breastfeeding Toolkit given away during an outreach event; Public Health Nurse Erin Radke and Heather Alberta (Ottawa Department of Public Health) at 2019 Bridgefest; Environmental Health Manager Randy Rapp at MiCareerQuest Expo giving middle school and high school students a glimpse of Public Health careers.
ENVIROMENTAL HEALTH

Environmental Health consists of multiple services that aid in protecting the environment and public health of Allegan County. Learn more about our Environmental Health services by visiting www.allegancounty.org/health.

IN 2019, WE FOCUSED ON:
• Meeting the 14 business days or less turn-around benchmark metrics for permits.
• Revising Food Fees to be more in line with actual time of service requirements.
• Establishing procedures to ensure quality assurance metrics are met for EH services.
• Developing a process and begin scanning documents into an electronic data management system -- File Bound.
• Performing mosquito and tick surveillance and submitting specimens if appropriate for Zika Virus and Lyme testing.
• Environmental concerns regarding groundwater.

EASTERN EQUINE ENCEPHALITIS HITS MICHIGAN

Eastern equine encephalitis (EEE) is an extremely rare but serious and often fatal infection that causes encephalitis or inflammation of the brain. It is spread by the bite of a mosquito infected with EEE virus. In 2019, EEE infected 10 Michigan residents, with six of these cases being fatal. EEE also infected 50 animals across the state, with two animal cases in Allegan County. In October 2019, knowing the high fatality rate this disease causes and no vaccine available for humans, the Michigan Department of Health and Human Services (MDHHS) aerially sprayed parts of the state with insecticide to kill mosquitoes and reduce the risk of infection. We partially activated our Public Health Operations Center for this incident to communicate to our residents and local officials on where and when the State would be spraying. We also ensured there were dedicated resources to answer local residents concerns and questions. Areas in Allegan County that were sprayed included Trowbridge Township and Gun Plain Township. More mosquito surveillance is needed as the risk of mosquito borne illness, including EEE, varies each year.

GROUND WATER STUDY EXPLORATION

The majority of private wells and city/township water in Allegan County are supplied by ground water. Currently, government agencies throughout Allegan County do not have easy access to important and reliable data needed to make decisions and develop plans regarding water availability and quality. As such, agencies may not be aware of water related risks and issues they may be facing within their respective areas.

Specifically, necessary data includes but is not limited to:
• The direction of the ground water flow.
• The direction of ground water flow along the Lake Michigan Shoreline and impact to shoreline erosion.
• The areas of poor quality ground water.
• The areas where ground water is being used at a faster rate than its being recharged.
• The areas of well head protection for Type I Water Supplies.

The Public Health Department presented on what the process would look like for gathering data and publishing reports around this topic. In late 2019, our BOC approved researching the project further and developing a proposal. More will come in 2020.
ENVIRONMENTAL HEALTH STATS

FIELD

613 well permits issued
5% decrease from 2018

302 SESC permits issued
8% decrease from 2018

2,645 SESC inspections
128% increase from 2018

488 final well inspections completed
22% decrease from 2018

605 septic disposal permits issued
9% decrease from 2018

431 final septic inspections
9% decrease from 2018

Increased Type II facilities meeting their quarterly sampling requirements by 89%

210 abandoned wells plugged
19% increase from 2018

Met the 14 business day turn-around 96.5% of the time for permits and loan evaluations

FOOD

694 food establishments inspected
5% increase from 2018

87 temporary food inspections
28% decrease from 2018

17 food borne investigations/complaints
No change from 2018

OTHER SERVICES

28 campground inspections
4% increase from 2018

99 public pool inspections
8% decrease from 2018

43 ground water samples collected
53% decrease from 2018

10 body art inspections
11% increase from 2018

1,454 EH Record Requests processed
23% increase from 2018
EMERGENCY PREPAREDNESS

The Public Health Emergency Preparedness (PHEP) Division coordinates the public health response to natural or human-caused emergencies. It is important for community organizations and residents to plan and be prepared for potential emergencies. For more information on Planning and Emergency Preparedness, visit www.allegancounty.org/health.

IN 2019, WE:
- Achieved Project Public Health Ready national re-recognition.
- Conducted 22 communication and notification exercises.
- Completed the Strategic National Stockpile Sharepoint Functional Exercise.

RESOURCE RECOVERY

The Resource Recovery Program serves 18 communities in Allegan County. Find more information on Resource Recovery, visit www.allegancounty.org/health.

7 regional collection events
1270 TONS recycling collected through curbside program
411 TONS recycling collected through drop-site program
70,277 LBS of electronics recycled
34,214 LBS household hazardous waste collected
5,968 LBS batteries
3,101 LBS pesticides
400 LBS sharps
5,213 scrap tires recycled
CORRECTIONAL HEALTH

We partner with the Allegan County Sheriff’s Department and medical care vendor to assure residents of the Correctional Facility are receiving services that deliver appropriate and effective standard of care. Socioeconomic factors, education and incarceration has an impact on the overall state of community wellness. Health screenings are performed, medical, dental and mental health issues are addressed, medication administration is managed, and risk prevention is initiated to improve inmate population health outcomes.

5,693 intake screenings 6% increase from 2018

996 health assessments 2% decrease from 2018

ANIMAL SHELTER

Public Health and Animal Control partner with Wishbone Pet Rescue Alliance who operate the Animal Shelter. Wishbone offers pet adoption services, education about the importance of safe animal care and housing and reuniting strays with their families through the Animal Shelter.

291 cats adopted 5% increase from 2018

299 dogs adopted 21% increase from 2018

MY COMMUNITY DENTAL CENTER

My Community Dental Centers (MCDC) is a non-profit 501(c)3 corporation, established a partnership with Public Health to provide dental services to Medicaid enrollees and low-income, uninsured residents.

3,424 patients served

Average Type of Patient Coverage, 2019

- Traditional
- Medicaid Adults
- Healthy Michigan Plan
- Uninsured
- Healthy Kids Dental

Address: 1535 Lincoln Rd, Allegan
