

Michigan Public Act 12 of 2014

Requirements:

1. A minimum of 5 fire drills is required for each school year. Three of the fire drills shall be held by December 1 of the school year, and 2 shall be held during the remaining part of the school year, with a reasonable spacing interval between each drill.
2. A minimum of 2 tornado safety drills is required for each school year. At least 1 of the tornado safety drills shall be conducted during March of the school year.
3. A minimum of 3 drills in which the occupants are restricted to the interior of the building and the building secured is required for each school year. At least 1 of these drills shall be conducted by December 1 of the school year, and at least 1 shall be conducted after January 1 of the school year, with a reasonable spacing interval between each drill.
4. Conduct at least 1 of the required drills (#3 above) during a lunch or recess period, or at another time when a significant number of the students are gathered but not in the classroom.
5. Documentation of a completed school safety drill is to be posted on our website within 30 school days after the drill is completed and is to be maintained on the website for at least 3 years. The documentation posted on the website shall include all of the following:
 - The name of the school
 - The school year of the drill
 - The date and time of the drill
 - The type of drill completed
 - The number of completed drills for that school year for each type of drill required
 - The signature of the school principal or his or her designee acknowledging the completion of the drill
 - The name of the individual in charge of conducting the drill, if other than the school principal
6. Not later than September 15 of each school year, the chief administrator of a school, or his or her designee, shall provide a list of the scheduled drill days for the school buildings to the county emergency management coordinator. A scheduled drill that is not conducted on a scheduled drill day due to conditions not within the control of school authorities, will not result in a violation of this section, as long as the school conducts the minimum number of drills required and the school reschedules the drill to occur within 10 school days after the scheduled date of the cancelled drill.

7. A cardiac emergency response plan shall be adopted and implemented. The cardiac emergency response plan shall address and provide for at least all of the following:
- Use and regular maintenance of automated external defibrillators
 - Activation of a cardiac emergency response team during an identified cardiac emergency
 - A plan for effective and efficient communication throughout the school
 - A training plan for the use of an automated external defibrillator and in cardiopulmonary resuscitation techniques (for schools that include grades 9 to 12)
 - Incorporation and integration of the local emergency response system and emergency response agencies with the school's plan
 - An annual review and evaluation of the cardiac emergency response plan
